DETAILED ACTION

Allowable Subject Matter

1. Claims 1-28 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant invention is drawn to a method and system for assesses the suitability of customer telephone lines for data transmission that includes selecting a telephone line having tip and ring wires by means of a computer and switch and electrically connecting the tip and ring wires together at a test access adjacent one end of the selected line to produce a common mode configuration. Single-ended electrical measurements are performed on the wires in the common mode configuration by a measurement unit connected to the test access to determine an electrical property of the wires from the measurements by driving the tip and ring wires in the common mode configuration with respect to ground.

Prior art of record failed to teach or fairly suggest in combination the method and system for qualifying a subscriber telephone loop for data transmission by electrically connecting the tip and ring wires of the subscriber telephone loop into a common mode configuration and driving the wires in common mode configuration with respect to ground to perform single-ended measurement for determining the electrical property of the subscriber loop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
